

EDUCATION

B.E CSE -Sri Eshwar College of Engineering CGPA:7.48	2024-2028
HSC – S.B.O.A Matric Hr. Sec. School 70.4%	2023-2024
SSLC – S.B.O.A Matric Hr. Sec. School 90.8 %	2021-2022

INTERNSHIP

Completed a MERN Stack internship where I gained hands-on experience in full-stack web development. The project was developed under the mentor ship of **Siddharth Sharma**, whose guidance helped me structure the application efficiently and understand real-world development workflows. This internship strengthened my skills in MongoDB, Express.js, React.js, and Node.js while working on production-level features. 2025

PROJECTS

Movie Recommendation System – Full-Stack Recommendation Platform 2024
Developed a movie recommendation platform using the TMDB API and MongoDB. Implemented personalized recommendations based on user preferences and similarity analysis of movie metadata. Built back-end data handling, API integration, and storage modules for efficient querying and scalability.

Smart Cooking Assistant – AIML Application 2025
AI-powered Smart Cooking Assistant that recommends recipes based on available ingredients using a Python backend and ML-based ingredient matching. Built with HTML, CSS, and JavaScript for an interactive UI, providing detailed cooking steps, preparation time, and nutritional information.

Microblogging Platform – MERN Stack 2025
Developed a full-stack Social Networking & Microblogging Platform using Spring Boot, Maven, and MySQL, enabling secure authentication, post creation, and real-time user engagement through likes and comments. Designed RESTful APIs, implemented JWT-based authentication, and structured scalable database architecture tested using Postman.
